Report on review of Condensed Interim Financial Information

To the shareholders of United Company for Financial Services (A Saudi Closed Joint Stock Company)

Introduction

We have reviewed the accompanying condensed interim statement of financial position of United Company for Financial Services as of 30 June 2021 and the related condensed statement of profit or loss and other comprehensive income for the three-month and six-month periods then ended and the condensed interim statements of changes in equity and cash flows for the six-month period ended 30 June 2021 and other explanatory notes. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

1 Legal status and activities

United Company for Financial Services ("the Company") is a Saudi Closed Joint Stock Company, registered in the Kingdom of Saudi Arabia under the Commercial Registration ("CR") number 2051224103 issued in Al-Khobar on 15 Jumada Al Awwal 1440 H (21 January 2019). The principal business activities of the Company include various types of consumer and product finance services under the license number 201905/Ash/52 obtained from Saudi Central Bank ("SAMA"), on 26 Shaban 1440 H (1 May 2019).

The Company's head office is located in Al-Khobar, Kingdom of Saudi Arabia. The Company is a wholly owned subsidiary of United Electronics Company, a Saudi Joint Stock Company registered in the Kingdom of Saudi Arabia, which is also the ultimate controlling party.

During the period ended 30 June 2021, the Company has obtained license from SAMA to engage in credit card financing activities. Management expects to commence such activities during the second half of 2021.

2 Basis of preparation

The condensed interim financial information of the Company as at 30 June 2021 and for the three-month and six-month periods ended 30 June 2021 has been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements issued by the Saudi Organisation for Chartered and Professional Accountants (SOCPA).

The condensed interim financial information does not include all information and disclosures required in the annual audited financial statements and should be read in conjunction with the annual audited financial statements for the year ended 31 December 2020.

The principal accounting policies applied in the preparation of condensed interim financial information of the Company are consistent with those of the previous financial year and corresponding interim reporting period.

2.1 Historical cost convention

The condensed interim financial information is prepared under the historical cost convention, except as explained in the relevant accounting policies in the annual financial statements for the year ended 31 December 2020.

2.2 Functional and presentation currency

This condensed interim financial information is presented in Saudi Riyals which is the Company's functional and presentation currency.

2.3 New and amended standards

A number of new or amended standards became applicable for the current reporting period. The Company did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2021 reporting periods and have not been early adopted by the Company. These standards are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

2.4 Critical accounting estimates and judgements

The preparation of condensed interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. In preparing this condensed interim financial information, the significant judgment made by management in applying the accounting policies and the key sources of estimation uncertainty pertain to computation of ECL allowance on its financial assets. Also see Note 15.

15 Impact of COVID-19 on ECL

The coronavirus ("COVID-19") pandemic continues to disrupt the global and local markets due to multiple waves and variants of the virus. The Government of Kingdom of Saudi Arabia (the "Government") has taken effective measures to control the outbreak and mitigate its potential impact on the social and economic activities.

Management continues to evaluate the current situation and its impact on the Company's key performance indicators in order to take necessary steps, as needed, to mitigate any possible disruptions to operational and financial performance of the Company. Management, based on its evaluation of the current situation and changes in multiple macroeconomic factors i.e. expected movements of oil prices and unemployment scenario weightings, has recognised the corresponding impact on the calculation of expected credit loss allowance as at 30 June 2021. The Company's ECL model continues to be sensitive to such macroeconomic variables and the Company continues to reassess its position.

16 Fair values of financial assets and financial liabilities

As at 30 June 2021 and 31 December 2020, all financial assets and financial liabilities of the Company are categorized as held at amortised cost. Management believes that the fair values of the Company's financial assets and liabilities are not materially different from their carrying values.

The breakdown of these financial assets and liabilities is as follows:

	30 June 2021	31 December 2020

17 Financial instruments and risk management

The Company's activities expose it to a variety of financial risks: credit risk, market risk and liquidity risk. The Company's overall risk management program, which is carried out by senior management under policies approved by the Board of Directors, focuses on having cost effective funding as well as managing financial risks to minimize earning volatility and provide maximum return to shareholders. The risks faced by the Company and their respective mitigating strategies are summarized below:

17.1 Credit risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation and cause a financial loss to the Company. The maximum exposure to credit risk is equal to the carrying amount of financial assets. As at 30 June 2021, the Company has maintained an ECL allowance of Saudi Riyals 34.8 million (31 December 2020: Saudi Riyals 20.6 million), which is considered adequate to provide for any losses which may be sustained on realization of financial assets.

The management analyses credit risk into the following categories:

Investment in Islamic financing contracts

Investment in tawarruq and murabaha finance contracts is generally exposed to significant credit risk. Therefore, the Company has established procedures to manage credit exposure including evaluation of customers' credit worthiness, formal credit approvals and assigning credit limits. The Company also follows a credit classification mechanism as a tool to manage the quality of credit risk of the tawarruq and murabaha portfolio and grades the individual customers based on both subjectivity and payment history taking into consideration factors such as customer credit standing, financial strength, security and quality of management.

Cash and cash equivalents and other receivables

These are placed with banks having minimum credit ratings of A3 or better, and therefore are not subject to significant credit risk. Other receivables are also not exposed to significant credit risk.

17.2 Profit rate risk

Profit rate risk is the uncertainty of future earnings and expenses resulting from fluctuations in profit rates. The risk arises when there is a mismatch in the assets and liabilities which are subject to profit rate adjustment within a specified period. The most important source of such risk is the Company's financing activities and long-term borrowings. As at the statement of financial position date, the Company has profit bearing financial assets of Saudi Riyals 975.1 million (31 December 2020: Saudi Riyals 703.2 million). However, the profit rates have been agreed with the respective customers upon inception of the Islamic financing contracts. Further, the Company also has variable profit bearing financial liabilities of Saudi Riyals 542.0 million (31 December 2020: Saudi Riyals 340.7 million), and had the profit rate varied by 1% with all the other variables held constant, total comprehensive income /loss for the year would have been approximately Saudi Riyals 1.4 million (30 June 2020: Saudi Riyals 0.57 million) higher / lower, as a result of lower / higher finance cost on variable rate borrowings.

The Company's financial assets and liabilities are not significantly exposed to other elements of market risk including fair value and cash flow interest rate risks, price risk and currency risk.

17.3 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot be reasonably predicted, such as natural disasters. In addition, the Company has access to credit facilities.

Cash flow forecasting is performed by the management which monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits on any of its borrowing facilities allocated by the shareholder.

The table below analyses the Company's financial liabilities into the relevant maturity groupings based on the remaining contractual maturity period at the reporting date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within one year equal their carrying balances, as the impact of discounting is not significant.
